Detect New Revenues

There are over 5 million reasons to add a PoolSonix™ Pool Alarm System to your business and heading up the list is **UNTAPPED OPPORTUNITY!**

Opportunity

There are over 5 million in-ground swimming pools in the United States* and the vast majority are unprotected.

Need

Drowning is the #1 cause of accidental death in children under 4 and the #2 cause of accidental death in children under 14**.

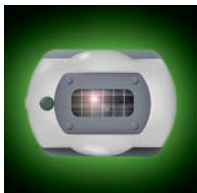

Regulation

The recently passed Pool and Spa Safety Act now mandates specific protective measures for swimming pools.

Extend your safety and security expertise to the backyard and capitalize on this emerging market. Help your customers add layers of protection to their swimming pool environment so that we can create a safer backyard.

The PoolSonix System — P/N: RH-PSX300

For more information about PoolSonix please visit www.poolsonix.com

PoolSonix SOLAR POWERED **Pool Alarm**

WARNING: PoolSonix is designed to alert responsible adults to unwanted swimming pool intrusions. IT IS NOT A LIFE SAVING DEVICE. Immediate intervention by a responsible adult is required when the alarm sounds.

Active adult supervision is the first and most important layer of protection for any pool. PoolSonix is not a replacement for active adult supervision or a direct replacement for any other supplemental layer of protection, including, but not limited to, lifeguards, fences, gates, pool covers and locks. PoolSonix detects the signature wave associated with accidental drowning—it may not detect slow, gradual water entry.

*POOLCORP (2008), **CDCP, National Center for Injury Prevention and Control (2008)

Information and specifications are furnished by the manufacturer and are believed to be accurate and reliable; ADI assumes no responsibility or liability for use or any infringement of intellectual property rights of third parties which may result from such use.
