

COMMERCIAL SECURITY INTEGRATOR

The security of your facility is far too important to entrust to just anyone. When it comes to protecting your business and the people who depend on you, look to an authorized Honeywell Commercial Security Integration dealer. These carefully selected dealers specialize in integrated commercial and industrial applications, providing the highest quality service and neat, efficient installations. Why trust your security to anything less?

HONEYWELL COMMERCIAL SECURITY INTEGRATOR

Honeywell is a global leader in providing product and service solutions that improve efficiency and maintain safe, secure and comfortable environments.

A Honeywell Commercial Security Integrator provides you the opportunity to obtain the best of all the Honeywell Security technologies from one central vendor, providing a completely integrated security solution.

A Fresh Alternative

With countless installations nationwide, we have the size and experience to meet any security challenge. A Honeywell Commercial Security Integrator is carefully chosen for their expertise, knowledge and training as a security integrator.

As independent business owners, they provide the personal touch that only a local operation can. So, whether your installation is in Albany, Chicago, Malibu or Miami, there is an authorized dealer uniquely qualified to secure your facility.

— MEET THE CHALLENGE —

As a business owner, you are constantly challenged to detect and address corporate vulnerabilities, as well as protect your employees, your property and your investment. Whether you are in charge of a lumber yard, financial institution, transportation warehouse or chain of retail stores, a Honeywell Commercial Security Integrator will provide you with customized, cost-effective protection and seamless integration for any application.

The threat of burglary and robbery are always present. When you lock up for the night and your staff goes home, the total security solution provided by your Honeywell Commercial Security Integrator will ensure that your facility is protected. With some estimating shrinkage at \$46 billion* dollars a year, our access control and video surveillance systems can help you minimize employee theft, while reducing shoplifting and fraudulent insurance claims.

Security

An authorized dealer will work with you to custom-tailor a solution to meet your specific needs. Honeywell's security solutions combine the most advanced technology with simple end-user operation—providing you with the highest level of protection.

The system can be monitored 24 hours a day by security specialists at a central station. If an emergency occurs, the central station personnel may verify the alarm and notify the proper authorities.

Access Control

Controlling personnel and visitor traffic through secured areas is achieved with access control. From the smallest to the most complex project, we can provide a seamless integration of systems to provide you with a superb access control solution.

Video Surveillance

We have a variety of video systems that can be configured to help you secure the interior and exterior of your facility. From basic video surveillance to sophisticated, integrated multi-media solutions, your authorized dealer can meet specifications ranging from one to hundreds of cameras.

Security Communications

With Honeywell, your alarm signals can get through even when telephone lines fail. Honeywell's AlarmNet backup service utilizes multiple technologies, greatly increasing the effectiveness of communicating alarm signals, keeping you and the proper authorities informed of conditions and situations that may need attention quickly.
